

# HOW-TO: BACKING UP YOUR **HARDWARE SETUP**

## DISCLAIMER

As a preventative risk measure to ensure nothing is lost during installation of new versions of the **PATCH APP** Software, please perform the following steps to **back up** your **Stored Data** in the **PATCH APP** Software. It is highly unlikely any of your Stored Data will be effected by this Software Install as we've tested this thoroughly, but its always **recommended** to perform these Stored Data Back-Ups.

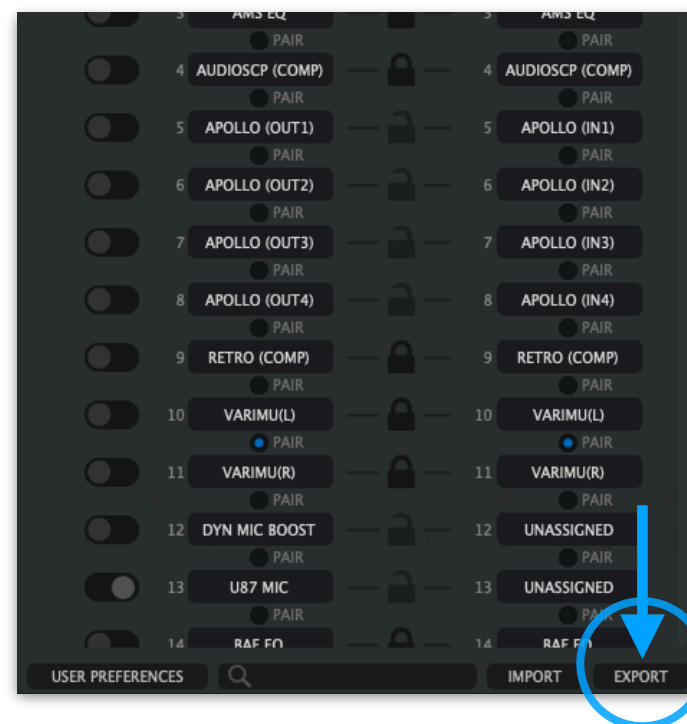

### STEP 1

Launch the PATCH APP Software and navigate to the **Hardware Setup Menu**

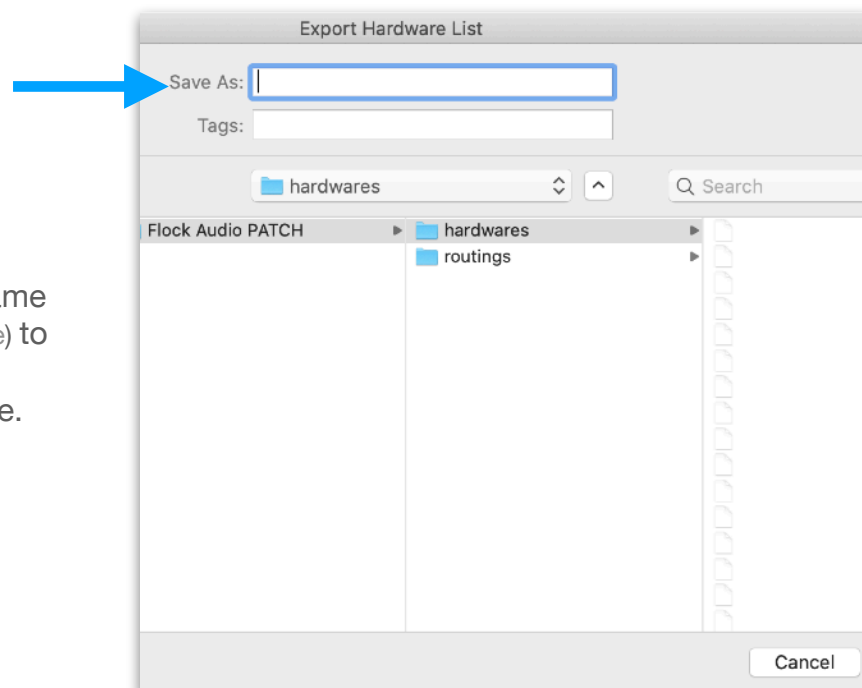

### STEP 2

Select **Export** in the bottom menu bar of the **Hardware Setup Menu**

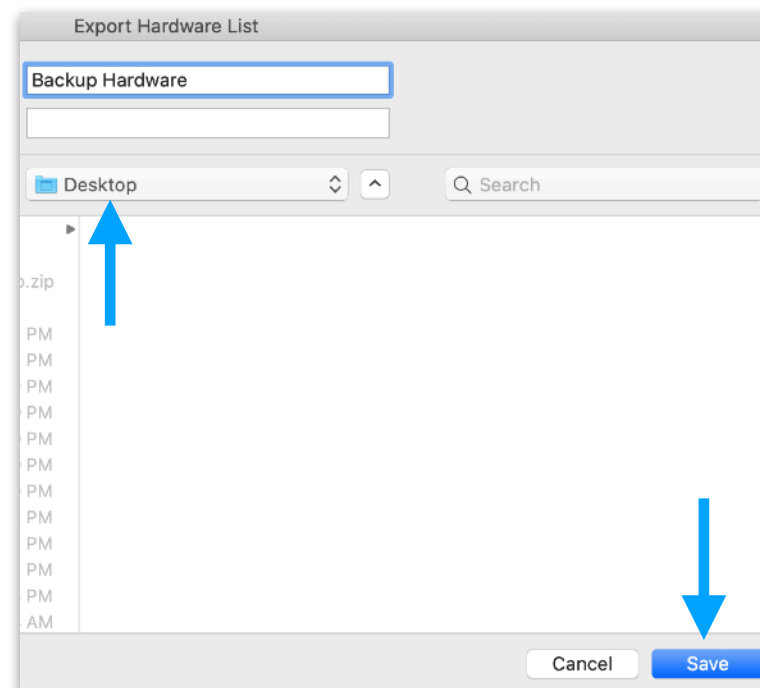

### STEP 3

Choose a Preferred Name (Recommended with a Date) to Save your Back-Up (**.flockhw**) Format File.

### STEP 4

Select a different Folder (I.E. Desktop, Downloads, Documents) and Select **Save** to complete the Back-Up.

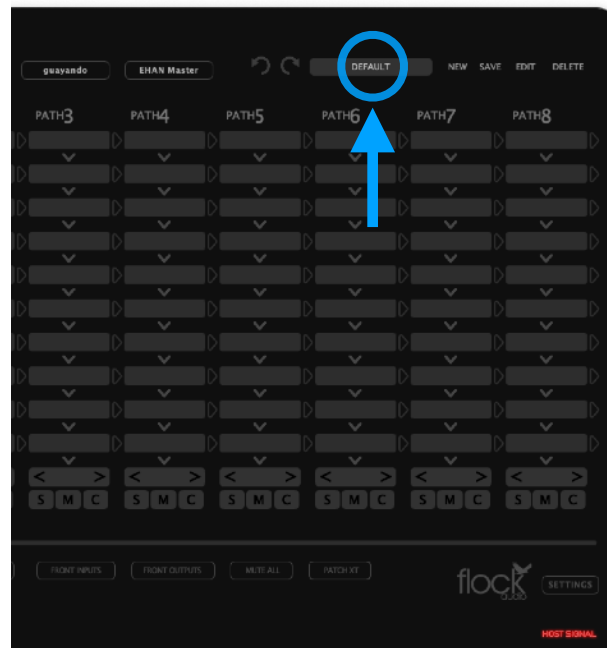

# HOW-TO: BACKING UP YOUR **STORED ROUTINGS**

## DISCLAIMER

As a preventative risk measure to ensure nothing is lost during installation of new versions of the **PATCH APP** Software, please perform the following steps to **back up** your **Stored Data** in the **PATCH APP** Software. It is highly unlikely any of your Stored Data will be effected by this Software Install as we've tested this thoroughly, but its always **recommended** to perform these Stored Data Back-Ups.

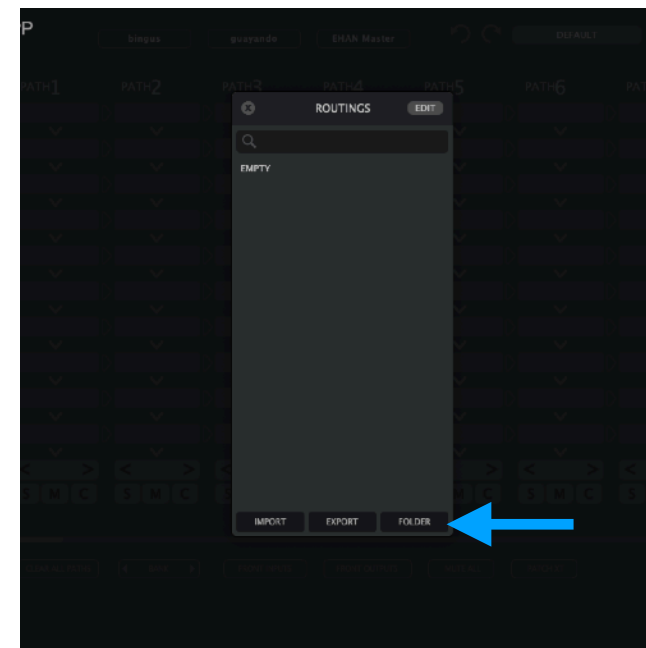

### STEP 1

Proceed to select the **Dropdown** Icon Button on your **Stored Routings Menu**

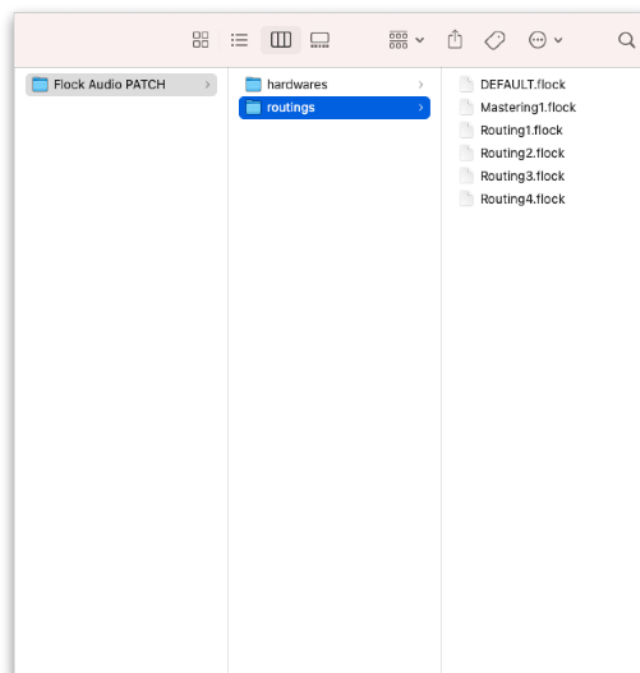

### STEP 2

Choose the **Folder** Option

### STEP 3

Locate your **"routings"** folder and **select/highlight** all the routings in your **Stored Routings Folder**

### STEP 4

**Drag + Drop** all the selected **Stored Routings** into an alternate folder such as: *(I.E. Downloads, Documents, Desktop, etc.)*
